CLININIAL CASE HISTORY and REFRENCE

Fire up the chainsaw and put the kiddies to bed because Ash is back and so are the...

EVIL DEAD

When the world goes mad, what better place to find salvation than in the loony bin! Welcome to the Sunny Meadows Institute for the **Criminally Insane**. Committed to a life sentence for being in the wrong place at the worst time, former department store manager and knight in shining armor, Ash falls under the "loving care" of a **mad doctor** hell-bent on using science to harness the power of the book of the dead - the **Necronomicon**. The doctor's unorthodox experiments unleash an ancient and oh-so-familiar **Evil** that quickly corrupts everything in its path. Looks like our boy is back in business! With Sam his **not-so-trusty (and not-so-alive) sidekick**, and a whole lotta **Evil** blocking his path, it will take every ounce of attitude, firepower, and **all-out butt-kicking** for Ash to **save the girl** and **rescue the world. Again**.

Get ready for pulse-pounding, knee-knocking, head-spinning…

Action!
Slice and dice your way through a motley crew of new demons, Deadites, and other creepy-crawlies intent on swallowing your 'soul' food.

Mystery!
Unlock clues buried throughout the creepiest, most utterly twisted levels you've ever witnessed, as you work your way towards a town with a history shrouded by a dark evil.

Romance!
Rescue Sally, your babe-a-licious lawyer, who's risked everything to prove your innocence and win your heart. Save the day and she might give new meaning to the term "researching your legal briefs."

Lots and lots of blood baby!
Create a **symphony of guts and mayhem** when you unleash your flame-thrower, harpoon gun, chainsaw, bomb-lance, pistol, and shotgun upon your undead foes. **The faint of heart need not apply** for this gig.

And Sam the Sidekick!
Love him, hate him, blow him to bits, but you're stuck with him all the same. Sam's got all types of funky tricks up his rotting sleeve to help you save day. But what's in it for him?

What time is it? Time to get freaking crazy!

Vaya con dios compadre.

PHYSICIAN NOTES

Sam has become a particularly troubling inmate. I don't believe for a moment that he is anything less than sane, though he is wearing on the edges of my sanity. This beligerant loudmouth thinks that Sunny Meadows is his personal vacation resort and a great alternative to prison. My patience with him has expired, making him the perfect subject for my "special project."

Violently unstable,
⇒
Erratic behavior compounded by acute schizophrenia

PATIENT HISTORY REFERENCE

Graveyard: This is supposed to be a place of the dead, however I have observed strange activity in the last 2 months. The dead are not dead.

135- 2934

CATACOMBS: The dogs I used for experiment 25d on 8-13-87 turned the creatures into rabid flesh eaters. I was a little disappointed however that the canines buried all the bones left from their victoms instead of eating them. I think I'll try quite a bit more voltage next time.

PATIENTS ADMINISTRATIVE STAFF

Chief Physician — David Bollesen

Co-founded Cranky Pants Games in early 2002, and oversees all development and operations for the studio. Prior to Cranky Pants Games, David was a Sr. Art Director at Electronic Arts in Seattle for five years. During his time at EA, David worked on multiple FIFA titles, Need for Speed 4, Motor City Online, and Hot Pursuit 2. As a selected member of the World Wide Graphic Council, David also helped guide EA's global graphic development strategies and initiatives.

RD Physiciatrist — Jeff Haynie

Art Director

Jeff Haynie has created and directed artwork on a variety of game projects for the past 6 years. Those projects include: Small Soldiers (PS1), Medal of Honor (PS1), Clive Barker's Undying, Need for Speed: Hot Pursuit 2, Summoner 2, and Red Faction 2. Before art directing teams, Jeff had a freelance illustration studio. Those clients included: Pixar, Disney, Warner Brothers, Pepsi, Dr. Pepper, American Airlines, Texas Instruments, Bic pens and Frito-Lay.

chief RN — Ryan Woodland

Technology Manager

A cofounder of Cranky Pants Games, Ryan has managed the engineering department in addition to writing code since the studio first opened its doors in early 2002. Prior to starting Cranky, Ryan spent time as a lead engineer with EA and as a member of the GameCube design team at Nintendo. Ryan started his game development career over 10 years ago at a San Diego-based Park Place Productions and has worked on almost every major game console since the SNES.

Security CS — Andy Beaudoin

Lead Game Designer

Andy Beaudoin has worked in game development for the past 6 years. Prior to joining THQ as a lead designer at Cranky Pants Games, Andy was a producer at Electronic Arts. In his time at EA he was involved in the development of titles such as FIFA '98, World Cup '98, FIFA '99, Motor City Online, and Hot Pursuit 2 (PC, NGC, and Xbox).

Facillity CFR — Steve Herndon

Project Manager

Steve Herndon has managed game development projects for the past 5 years. Those projects include; Medal of Honor: Underground, Medal of Honor: Allied Assault, Clive Barker's: Undying, Medal of Honor: Frontline, and Need For Speed: Hot Pursuit 2.

Before managing teams, Steve was a software engineering lead on several game titles at DreamWorks Interactive. Steve started his software engineering career at Microsoft where he worked on Multimedia Windows, Windows NT and several CD-ROM entertainment titles.
